

In The United States District Court For The
Middle District of Alabama
Eastern Division

William Lanier Ellis, Jr.

v.

Russell County Jail, et al.,

Case No. 3:07-CV-920-MHT-SRW

FILED
JAN 15 2008
U.S. DISTRICT COURT
MIDDLE DISTRICT ALA.

RESPONSE

Comes now the Plaintiff, William L Ellis in response to the answer as ordered by this Court.

1. Comes under a 42 U.S.C. § 1983 and under the 8th amendment. The plaintiff does not base his claim on "Denial of treatment". But in the manner, which the access and care was given.
2. The Plaintiff raises a claim in which proper relief can be granted. The biggest issue is to accept the true fact of his prior and present pain and suffering.
3. To knowingly let me suffer at any time is a violation of the Eighth amendment and the oath of a physician.

4. The Plaintiff moves this Court to dismiss all party's except Dr Warr. or any subsidiary or insurance therein covering Dr Warr. Namely Sina Riley Pelfrey, Danny Brasey, Loretta Holland and John Still.
5. Dr Warr is a private Contractor to a government agency in no way is he a "Government official" Furthermore no bar by the Eleventh amendment can cover him. as he is a person
6. The plaintiff reserves the right to defend any remaining Counter claim or defense. The plaintiff prays this Honorable Court rule in his favor take in consideration all missing medical documents and records. The plaintiff is entitled to monetary damages and proper relief of pain and suffering.

Executed this 12TH day of January
William Lamin Ellis Sr.

Certificate of Service I hereby certify that I have mailed a true and exact copy to the Honorable Scott Gosnell Counsel for the defendants

This 13TH day of January.

In the District Court of the United States
For the Middle District of Alabama
Eastern Division

2008 MAR 10 A 9 34

U.S. DISTRICT COURT
MIDDLE DISTRICT ALA.

RESPONSE

I. FACTS, In Exb A the defendants "state that the plaintiff has been incarcerated several times." That is an untrue statement. Several means more than two. Upon being booked in the second time, which was Friday March 9TH. I seen none but a booking officer. Which would be Mrs Buesell.

That Friday night nurse McGinnis did not come in to work and i DID NOT receive my medication nor was physical screening done. A Booking officer is not a Nurse, PA or Doctor. (i) Apparent mental Status, normal. I was unaware a Booking officer was able to interpret someones mental statd(ii) the Plaintiff Did infact indicate that he was having medical problems. (1) Currently on prescribed medications (2) Eye problems (3) ongoing Cough (4) Heavy night sweats for no reason (5) Severe weight loss (iii) Mr. Gosnell states I was taking two medications, the intake sheet proves three and one of those is incorrect

The defendants state that the plaintiff only brought phenobarbital with him, that would be correct. Dr David Smith said it would be a waste of time to send any medication or recommendation.

However the next paragraph on page 3 state the plaintiff did not bring any medications with him. The intake sheet shows otherwise.

I received no medications on March 9TH I was left in the holding tank for observation and medication was skipped until the next day. Furthermore never left the holding tank until the next day.

Upon entering the facility on March 9TH, 07 Mrs Riley was on duty and had prior knowledge of the medical issues.

Moreover the plaintiff came with his own medical records and at least one MRI that showed a bulging disc at L4-L5, S1 to say they had no knowledge is a blatant lie. If Dr Warr had no prior knowledge he had me on Tramadol in 2006 for no reason II.

It took from March until June (that's 4 months) until the problem started being addressed. On April 25TH the plaintiff had his legs slammed in the Van door at the Courthouse. On May the 2nd the inmate or plaintiff fell going up the stairs.

The defendants claim to have increased my seizure medication, that is untrue. I was on 180 mg a day now im on 120mg a day. Furthermore Dr Warr acts as if he is doing me a favor by treating my pain issue. Moreover he is doing what he is paid and trained to do

as a private paid Contractor to a government agency Dr. Warr is not immune from negligence or malpractice. Malpractice is medical misconduct by a doctor. Dr. Warr can't stipulate why it has had to go to these extremes, Fact is he cares little for inmates and the plaintiff will stipulate that Southern poverty had this same lawsuit in 2002 and won.

The defendants did not submit a TENTH of the medical records that are relevant. If Dr. Warr received those records from Medicare and Dr. Lucks then Dr. Warr is in Contempt of this Court. There were two documents from Medicare and no MRI from 2005, to use a Comparison MRI to show this Court.

This is 2008 not 1959 people live long extended lives in pain management. Dr. Warr does not agree with it. Fact is it works. This is no longer the day where a BC powder and Coke will "fix you right up." I suffer from Chronic pain. By medical standards that is pain that does not go away for extended periods of time. If Dr. Warr would take the time to listen to his patients maybe he could fully understand.

Dr. Warr has fell into the political arena of Jail Politics. His belief is merely that inmates should suffer. No one has the authority to overrule any decision made by Dr. Warr.

There is no question about the inadequacy you would think after 109 request and Countless Grievances Dr. Warr would conclude this is a real problem with his patient

Furthermore affirmative exhaustion of the grievance procedure was followed. On 10/28/07 Lt. Holland advised

Plaintiff to resolve his issues with the Courts. This is the

1 2 3

Actual thickness of my extra thick Mattress. which is less than half that when it is laid on. There is no Comfort and half the inmates in this facility have them. It does not reduce "PAIN."

As stated by Mr. Gosnell on (page 3 paragraph two) Mr Ellis had no Evidence of a spinal fracture or dislocation. now he has a total of 10 mm hanging out of his spine.

On July 24th, 07 the plaintiff did see (Dr. ^{STRIKE}Warr) (Correction Dr Canedo) The plaintiff did get very upset with the Dr. when I was being examined he left the upper restraints in place. In fact he had no Knowledge until half the exam was over. The actual report Shows that Mr Ellis Should undergo pain management. My visit with Dr Canedo was not terminated, we got into a heated discussion about treatment and the actual problem.

III. In september Dr warr ventured off to treat the plaintiff With buspar an anxiety Medication that the plaintiff had never taken (please keep in mind the plaintiff has Grand mal Seizures) after a week or so the plaintiff orally Spoke With the nurse about the medication affecting his Seizures. Some week or so later Dr warr Discontinued. However the medication was still administered, resulting in a Seizure on Sept 20th.

I gave a full explanation To Mrs Riley that the effepor also was having bad side affects and i stopped taking it also, later I told Dr warr im epileptic I cant just take anything.

I've heard a great deal of excuses and reasons not to treat me. However I submitted a request to Dr. Warr asking him to sign off on a request stating why I couldn't receive my regular medication, Dr. Warr refused to sign off.

I have exhausted the grievance procedure as required by this Court. Furthermore Dr. Warr has had plain and prior knowledge of the plaintiffs suffering. As a medical Doctor he has an oath to live by and Honor. To knowingly let me suffer because I'm in jail is cruel. It's no excuse to let anyone suffer. The plaintiff further ask that the Southern Poverty lawsuit be brought to light.

So you can only conclude that Dr. Warr is under the assumption that, if the plaintiff be spared his suffering by the necessary use of narcotic pain relievers, that he may enjoy himself while in jail?

Let me assure this Court no medication in the free world can take the place of what I deal with every day. What looks good on paper doesn't mean it works. So now I either do it his way or I continue to suffer.

I ask that this Court Grant proper relief to the plaintiff and bring a full evidentiary hearing soon as possible. The plaintiff will move to Dismiss, Danny Bussey, Loretta Holland

offices John Still and, Tina Riley Pelfrey. However the plaintiff ask that Dr. Warr remain part of these proceedings and any insurance carrier he may be covered by, along with the

Insurance Carrier that covers this facility, that the plaintiffs injuries will be covered. Due to the sworn events on November 20th 2007.

This facility has liability Insurance to cover such injuries and the plaintiff has every right to be covered.

The weight or waterbag was not the plaintiffs nor was it in the plaintiff room. It was in the dormitory by the phone. Sgt San Nicholas made some very untrue statements (i) The plaintiff was laughing and faking @ the time of his fall. "I never laughed faked or anything of the sort. With my fellow inmates". (ii) This was not the plaintiffs waterbag nor was it in his domain, surrounding or his person. "THIS WAS NOT THE PLAINTIFFS WATER BAG". (iii) The water was left on purpose to punish the dorm. Any inmate will tell you its Common practice to Bust a water bag where ever it is found and left for the inmate to clean up. (iiii) The plaintiff was never taken to the infirmary there was no one here. The infirmary was locked and i was put in a holding cell. once again the unsafe medical practices are put into effect, with no medical staff on duty.

This Court should know of Peter Holloway, James Battle Damascus Session, those who have suffered and paid for the unsafe medical practices.

Once again I was given a choice if I wanted treatment and officer still told me "he didnt give a damn if my spleen was ruptured, I was going to change clothes before I went"

I made no protest to the Clothes or the restraints. I already knew I had to be in a belt before I left the facility

Fact was he was in a bad mood because he had the duty of escorting me

I did in fact inform Staff that they were putting pressure on my lower spine causing my legs to buckle. I never made any mention of no restraints.

No MRI was offered to me at the Summit Hospital I took X-rays and that was all that was offered, In fact the examining Dr LI never even raised my shirt to look at my back, He still diagnosed me with a Contusion

Farthermore Injury has occured in my upper back and lower back. I have never really had any upper back problems now im suffering severely. Im still waiting to see a Neurosurgeon

The only reason my Case ever Comes up is im always asked if I have been indicted or when is my trial.

There a 3 types of pain, Mild, Moderate and severe. I suffer from severe Chronic pain. yet im treated with a Moderate pain medication. THE 8TH amendment guarantees that all are guaranteed a Certain quality of life. Right now I have no quality of life. Im suffering day and night and doctor Warr knows it. I've asked, begged, I leaded for proper relief. If that means the use of a Marcotic pain medication then so be it.

I fully understand the relief that comes with that. after 11 long months of pure suffering im entitled some relief.

Ive seen far to many back surgeries gone bad and the very thing he is trying to get me away from which is medication ill be right back on in less than 2 years.

I really dont want to be cut on anymore but im being forced into it I have no lawyer to fight and everyday that goes by I get worse. So I either do it Dr warns way or suffer.

So I plead with this Court to leave me a grace period after my surgery to fight for my self. Ive got a mother brother, 2 uncles and my father all had back surgeries and all were disasters ending up ~~worse~~ off than when they started

Ive seen the work of Dr Hagouri which was the elite of back surgeons in the 80's. Dr Burr, and no matter what decade the results are the same.

I further ask Consideration of the Court to Consider the pain of the plaintiff and rule in the plaintiffs behalf

Executed this 11th day of January

Middle District of Alabama
Eastern Division

Affidavit Of William Ellis

William Lamin Ellis Sr.

Case No. 3:07-CV-920-MHT-SRW

v.

Russell County Jail, et al

1. My name is William Ellis I am over the age of nineteen and am Competent in every way to execute this Affidavit and I have a great deal of personal knowledge on and about this Case.

2. I am an inmate pre-trial detainee and have been so since March 9TH 2007, to Current date 1-12-2008 With no indictment. Furthermore have suffered a great deal of injury while in Custody of the defendants. Am in the worst shape of my life from mental and physical stress. I have been severely Punished and yet im guilty of nothing.

I have been Convicted of NO Crime. Needless to say I havent even been indicted. Moreover the burden of Care is upon those who have Custody of me.

On April 25th 2007, the plaintiff was taken to his preliminary hearing. Upon leaving the Courthouse and loading into the Van my legs were slammed into the door. I think highly of officer thigpen and made no issue of it. It was an accident. Less than a week later i can feel the injury. By May the second my leg goes out on me walking up the stairs.

I still havent put the incident with the injury but by June there is no question something is terribly wrong and different (see personal Journal). My pain was always in my left leg and foot. Now severe muscle spasms are hitting my right hip and has moved up and down several inches in my back. (To Correct the record i Came in from Muscogee County Jail. I was examined by Dr. David Smith on Wednesday March 7th* See MCS medical*. upon his assesment he wanted to put me back on Methadone and I refused and ask for Tylenol 3. I Knew Soon as I got here whatever I was on It would be taken-) As each week and month passes im getting worse.

Needless to say im walking on Concrete floors no support on my back and legs. I never asked for special treatment i only asked that my pain and medical issue be addressed as a serious problem. Furthermore the records from: Dr Anthony Lutaranto, Dr. Greg Parker, Dr. Steven Sucks, and Dr. David Smith were not admitted to any part of the record.

3. Any timely fashioned medical care by staff is when its convenient.

4. I had an emergency situation here on November 20TH 2007. I went to use the telephone after the Cell Block came off lockdown. I was reading some notes in my hand to pass on to my daughters. When I reached an area of approx. 3 to 5 feet I felt my right leg come straight out from under me and I hit the floor. Soon as I hit I felt a sharp pain shoot directly up my spine like a row of dominoes being knocked over.

I was never taken to the infirmary and after only a few x-rays no further treatment is given to my new injury in my upper back.

5. Upon intake I informed Dr. Warr of the back issues, it took from March 9 until November 14TH to get an MRI on the patient. Upon receiving the results a serious injury is found. On November 20TH the new injury occurred and no follow up is done.

6. Dr. Warr states that they do not prescribe narcotics here. Phenebutal is a barbiturate and classed a narcotic.

7. Dr. Warr is fully aware that after the slip and fall the only thing that can pick up any real damage is

a MRI. a X-RAY will show breaks and cracks only. It wont show any real damage. Its merely to say that something was done.

8. The medical Referral was from Med-Care under Dr. Anthony Ditaranto, Dr. Mecca would be the head physician over medcare. I Can assure this Court there records exist and that pain management is crucial to my care.

9. Although Dr. Warr is not bound by another doctors orders or Course of treatment it is highly unprofessional, unethical and immoralistic, to disregard another Doctors treatment, recommendations and prescriptions. Furthermore he is bound to the patient's bill of rights which was not submitted in the special report.

10. This Affidavit is to my best Knowledge, true and correct to the best of my ability. Due to the Circumstances of no known available Notary this affidavit along with the rest were signed by the underlined and witnessed by four persons in each one for authenticity

1. My name is Timothy Hopkins, I am over the age of nineteen furthermore Competent in every way to execute this Affidavit, which is based on my personal knowledge of the events of November 20TH 2007

2. I am a inmate at the Russell County Jail. I was present when the incident happened and did witness the accident of Mr Ellis

3. on November 20TH I was waiting for the doors in our cell block to open. I Came out first and Mr Ellis Came out shortly after.

Mr Ellis had his back to me walking toward the phone.
I seen Mr Ellis slip and fall in a puddle of water
hitting the floor.

Shortly after Sgt San Nicholas and officer
Brown came to check on Mr Ellis who was unable to get
up.

Officer Brown then left to get a wheelchair
to assist in helping Mr Ellis up. Mr Brown returned shortly
after. The two officers then proceeded to help Mr Ellis up
in the chair and left with him.

That is what I seen happen and I swear before
this Court it is true and exact to the best of my knowledge

Affidavit Of Michael Gordy

William Lanier Ellis Jr.

V.
Russell County Jail, et al,

}
} Case No. 3:07-CV-920-MHT-SRW
}
}

1. My name is Michael Gordy, I am over the age of nineteen and am competent in every way to execute this affidavit.

That is based on my personal knowledge of the events of November 20th 2007, and prior to that knowledge of his pain and suffering.

2. I am an inmate at the Russell County Jail and I was present and did witness the November 20th 2007 incident.

3. On November 20th 2007 I was standing in my door which is approximately 12 to 13 feet away from the phone. I saw Mr Ellis walking to the phone. When Mr Ellis got close to the phone I seen his feet come out from under him. When he hit the floor instantly you could see he was in a

great deal of pain. It was approximately 7:05 P.M. shortly after Sgt San Nicholas Came. Mr Ellis was asked if he could get up. He replied no. Then officer Brown left to get a wheelchair. Mr. Ellis had to pull himself up on Sgt San Nicholas to get in the wheelchair. Finally he was placed in the wheelchair and they left.

4. I have known Mr. Ellis since March of last year. When I met Mr Ellis he could walk on his own with no limp a few months after that he progressed into a severe limp and I often ordered tylenal for him.

You could tell he was in a great deal of pain all the time. Sometime in June we were separated. In August we were put back in the same cell block. When I first saw him I Couldn't believe it was the same person.

He looked, exhausted all the time you could plainly see the pain in his face. I still order tylenal to try and help him with his pain.

5. I'm also Very aware of the situation with medical and I read the Complaint and answer filed and Can say with out a doubt that its not as easy to get help as they make it sound. If you get sick after hours or on the weekend Chances are, your own your own.

I swear before this Court that all information is true
and correct to the very best of my knowledge.

Affidavit of Damascus Session

William James Ellis Sr.

vs.

Russell County Jail, et al.,

} Case No 3:07 CV-920-MHT-SRW
}
}
}

1. My name is Damascus Session. I am over the age of nineteen and am competent in every way to execute this affidavit, which I have personal knowledge of the events on November 20th 2007 and prior events.

2. I am ~~an inmate~~ at the Russell County Jail. I have known Mr Ellis since August of last year. On November 20th last year I came out of my room at approximately 7:05 and went to turn on the television which is at the end of our cell block. I hit the power button and nothing happened so I turned to get the Pool officers attention. I seen Mr Ellis walking toward the phone and he slipped and fell.

that once again was approximately 7:05. shortly after Sgt Sam. nicholas Came to the dorm. Mr Elli told the Sergeant he was unable to get up. officer Brown left to go get a wheel chair. Mr Elli was assisted into the wheelchair by both officers.

3. I have personal knowledge of Mr Elli's back problems I also try to help him with tylenol when he needs it.

I personally suffered a slip and fall in the cell block and waited some two hours before I was taken to the infirmary. I did not receive no Hospital treatment only muscle rub. No follow up was done on this injury.

4. If you get sick after hours or the weekends your on your own the nighttime nurse comes in for a couple of hours and leaves. I read the answer to the complaint and it is not as easy as they make it sound to get help.

Dr. Warr, as your aware I fell on the 20th and was sent to the E.R. My Back and legs are locking terribly in muscle spasms. The pain in my spine has moved up 4 to 6 inches in the lower part of my spine. Although nothing shows broken on an X-ray. It wont show the type damage I have. Also note to your record my B.P. was 153/100, 148/93, 143/98, at any

LOCATIONName William Ellis Date 12-9-07**MEDICAL**

Nature of complaint or illness:

On Friday the 7th I went back to the clinic
doctor and was given a back adjustment. I'm
still paying for that. Tomorrow morning I'm
going back. I refuse to be poked or pulled
any more. If you send me I'll refuse it
if there you making a bad problem worse
and I'm the one suffering for it. Dr. Warr

Nature of complaint or illness:

Dr. Warr. I was back in the clinic
I have been asking for a long time
please send me in I have been
in the clinic. I was even asked
for contribution to the health care. I
am a strong believer in health and medicine.
Thank you.

Mr. Scott I'm not sure what the motive was to
put me in traction. My injuries are easy to recover
for traction. Even the chiropractor thought I needed
to see a orthopedic Dr. Traction is rarely used
anymore for back injuries. I would advise let any-
one that is not a Medical Doctor do traction on
me. Its scary that you would put my health

Please take in consideration one putting about floor was the last thing I need. I made it clear so there are no misunderstandings. I hit the floor full impact on my back bone. I hope that no one drops a water bag in the Day room. Now I'm paying for someone else. This injury is already affecting me.
